The MAILING DATE of this commun	ication appears (on the cover sheet with the c	orrespondence address			
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).						
Status						
 Responsive to communication(s) filed on 14 October 2005. This action is FINAL. 2b) This action is non-final. Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213. 						
Disposition of Claims						
 4) Claim(s) 1-42 is/are pending in the application. 4a) Of the above claim(s) 17-41 is/are withdrawn from consideration. 5) Claim(s) is/are allowed. 6) Claim(s) 1-16 and 42 is/are rejected. 7) Claim(s) is/are objected to. 8) Claim(s) are subject to restriction and/or election requirement. 						
Application Papers						
9) ☐ The specification is objected to by the specification is objected to by the specific transfer of tran	er 2003 is/are: a ection to the drawing the correction is	ng(s) be held in abeyance. See required if the drawing(s) is obj	e 37 CFR 1.85(a). jected to. See 37 CFR 1.121(d).			
Priority under 35 U.S.C. § 119						
 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a) All b) Some * c) None of: 1. Certified copies of the priority documents have been received. 2. Certified copies of the priority documents have been received in Application No. 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). * See the attached detailed Office action for a list of the certified copies not received. 						
Attachment(s) 1) Notice of References Cited (PTO-892) 2) Notice of Draftsperson's Patent Drawing Review (I) 3) Information Disclosure Statement(s) (PTO-1449 o Paper No(s)/Mail Date		4) Interview Summary Paper No(s)/Mail Da 5) Notice of Informal P 6) Other:				

DETAILED ACTION

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 1-16 and 42 are rejected under 35 U.S.C. 103(a) as being unpatentable over Snow et al U.S. Patent 6,350,431.

The rejection is set forth at pages 2-3 of the office action mailed on 05/12/2005 and it is incorporated here by reference.

All discussion the previously office action is adequately set here. In addition Snow discloses a variety of linking moieties that can be selected from the monomer unit(s) including styrene, p-aminostyrene, p-aminobenzylstyrene, sodium styrene sulfonate or kinking groups including C6 phenylene groups, C7-C16 alkylenylphenylene groups and C8-C16 alkylenephenylenealkylene groups, column 45, lines 61-63 and column 48, lines 62-63. In light of the aromatic moiety for the linking groups in Snow invention, the aromatic angled linkers could be readable in Snow. Snow does not disclose an angle of less than about 155 degree by adjusting two polymeric units. It would have been obvious to one of ordinary skill in the art to select the suitable linking monomeric unit such that the polyalkylene oxide and chromophore-containing compound are joined by linking monomeric unit such that angle is formed being less that 155 degree. Since the

Art Unit: 1711

linking monomeric unit in Snow invention can be selected from the aromatic moieties the angle of less that 155 degree for connecting polyalkylene oxide and chromophore-containing compound by said linking monomeric unit could be obtained, column 48, lines 62-63.

Response to Arguments

- 3. Applicant's arguments filed 10/14/2005 have been fully considered but they are not persuasive. The argument is that Snow does not disclose an angled aromatic linker having bonds to its two adjacent polymeric units which form an angle of less than 155 degree.
- 4. Snow discloses the linking monomeric units including styrene, p-aminostyrene, p-aminobenzylstyrtene, sodium styrene sulfonate, column 48, lines 62-63 or C6 phenylene groups, column 45, lines 61-63. Thus, these linking monomeric units can be selected for adjacent polymeric units with an angle of less than 155 degree.

The examiner note: It is not clear the X, Y and Z in the formula in claim 42.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Application/Control Number: 10/666,333 Page 4

Art Unit: 1711

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Olga Asinovsky whose telephone number is 571-272-1066. The examiner can normally be reached on 9:00 to 5:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
